

In re Application of COLLERAN et al.  
Application No. 09/543,930

REMARKS

*A Notice of Drawing Inconsistency With Specification* mailed November 3, 2004 required that an inconsistency between the Drawings and the Brief Description of the Drawings in the specification be corrected. This amendment after allowance amends the specification so that the Brief Description of the Drawings lists Figures 9 and 10. This amendment merely embodies the correction of formal matters and does not add new matter.

Respectfully submitted,

---
